## EDUCATION

### Calcutta University

*B.Tech in Computer Science and Engineering*

- Cumulative GPA : **7.554/10.0**

Kolkata, West Bengal

2021 – 2024

### Sammilani Mahavidyalaya

*B.sc in Computer Science(Hons)*

- Cumulative GPA : **8.104/10.0**

Kolkata, West Bengal

2018 – 2021

## EXPERIENCE

### Internship in Data Analytics at IBM [↗](#)

June 2023 - July 2023

Diabetes prediction using machine learning

- Studied and applied machine learning and deep learning techniques for data analytics tasks, specializing in diabetes prediction.
- Developed a diabetes prediction model using Python and the popular scikit-learn library.
- **GitHub Repository**

## PROJECTS

### E-Commerce App [↗](#) | NextJs, Redux-Toolkit, TypeScript, Tailwind CSS

- Users can filter products according to brand and category
- The products added to the cart are stored in local storage.
- **GitHub Repository**

### Text Analyzer [↗](#) | Reactjs, CSS, JavaScript

- Count the number of words and characters, and preview the text.
- Convert the text into uppercase or lowercase.
- Analyze the writing speed and allow users to copy text from the application to the clipboard.
- **GitHub Repository**

### Todo App [↗](#) | Reactjs, CSS, JavaScript

- Add, delete, and modify todo tasks.
- All data related to these tasks is stored locally.
- Additionally, there is an option to change the background color to suit preferences.
- **GitHub Repository**

### Quiz App [↗](#) | Reactjs, CSS, JavaScript

- Engage users with a dynamic quiz featuring 15 questions across various topics.
- Move to the next question on correct answers and automatically exit users on incorrect responses.
- Implement timers for each question to add excitement and challenge.
- **GitHub Repository**

## TECHNICAL SKILLS

**Languages:** C, Java, Python

**Technologies/Frameworks:** HTML5, CSS3, JavaScript, TypeScript, MySQL, MongoDB, Express, ReactJS, NextJS, NodeJS, Tailwind CSS

**Developer Tools:** VS Code, Postman, git

## Coding Platforms

- **Leetcode:** Solved **250+** Problems [↗](#)
